

Healthcare & Municipal Employees' Credit Union

Dear Valued Member,

We wanted to inform you about an important update regarding our systems.

On **June 11th, from 3:00 AM to 4:00 PM**, we will be upgrading our current system. During this time, our online banking services will be temporarily unavailable. Your member card will still work during this period but with reduced limits.

We understand that this scheduled outage may cause inconvenience, and we sincerely apologize for any disruption it may cause to your day. However, please note that this migration is necessary to improve our services and ensure the long-term reliability of our systems. These improvements will allow us to continue to provide our members with a great banking experience.

Rest assured; no action is required from your end. Once the upgrade is complete, you can simply log back in after 4:00 PM on June 11th to regain full access to all your online banking services.

We appreciate your patience and understanding during this transition. If you have any questions or concerns, please reach out to info@hmecu.com

Best,
HMECU
